END GRAIN BOARDS

Besides being beautiful, end grain boards have even more advantages—both practical and cost-effective. Unlike traditionally made boards, end grain construction is less dulling to cutlery because the wood grain direction accommodates cutting instead of resisting it. (As the knife cuts, it slides into the direction of the grains instead of against them). Wear and tear is minimized on both cutlery and on the board, giving more longevity to all your cutting tools.

BEST SELLER

LARGE END GRAIN PREP STATION

Large enough for any task and a beautiful addition to any kitchen.
